My advice to people who are looking for movies with this title is to avoid it, at least it's not worth the time and effort. There's nothing bad about this film, except for the occasional and slight censor warnings and the over-acting by the actors. Although this film is an enjoyable one, it's also a bit of a disappointment since it's only a prequel to the made-for-TV movies "Diary of a Mad Black Woman" and "Diary of a Mad Black Woman 2" Both of these are more entertaining and have better acting and direction. Despite this, I recommend the fans of this movie to watch "Diary of a Mad Black Woman" and "Diary of a Mad Black Woman 2" to have a complete story line and it's much more entertaining.
