. By following the directions provided, students can use their knowledge of their character to write a character analysis essay that shows readers their character's best and worst traits. The prompts are for "written" analysis. For example, if you were writing a biography, you might do the following: You also may use this as a revision of your character analysis essay, as you can re-read your essay and use the prompts to help you revise for the best possible score." The questions are also on a rubric that I included in the link. I also used this graphic organizer as a model to write my character analysis essay. I so that others can see the logic that I used and learn from my mistakes. I also included the directions and the rubric in case others find them helpful and easy to follow. It would also be helpful to include the same for a writing prompt for short story writing. This is also the same one that I used to write my ACT/SAT essay. As others have suggested, the book "Analyzing Fiction" by John McWhorter is great. But here are some of the things that are helpful in my classroom, which I hope you can use. MyWritingWorksheets (They have lots of resources for writing) Writing a Cloth Character Analysis (they have many different ways of doing this). "Character Analysis: Analyzing the Character of a Movie, Movie Character, Book, and even a TV show" A: I would probably be going into some detail about the story and what I think are the key elements, the author(s) did to the characters to make them distinctive, the events they go through that effect them and make them the kind of person they are in the end. The prompt you used for this question is asking about 'each character', which makes it much easier, as you can pick out what the character is like. Q: Android App layout change on orientation I am developing an app that has two layout in landscape and portrait mode, however, when I change the orientation from landscape to portrait, the app is still in landscape, the same in the other way. I'm loading the layout in xml. the activity_main.xml:
