Category:Urdu-language films Category:Pakistani filmsQ: Modify User Agent in Firefox I'm developing a web application in ASP.NET MVC4. I use Google Analytics, and it only works with the "User-Agent" changed. However, I can't figure out how to change the user agent in Firefox. I go to about:config, and enable the "network.http.spdy.enabled.http2draft" flag, and set it to true, but it still won't work. How can I do it? A: You can use the following javascript in the application: var ua = navigator.userAgent; var rx = new RegExp("^Mozilla/5\\.0 [\\S]+(?:AppleWebKit/[\\S]+)?(?:KHTML/[\\S]+)?Version/"); var rx2 = new RegExp("^Chrome/[\\S]+"); if (rx.test(ua) || rx2.test(ua)) { //browser is chrome or firefox } This check is not reliable, there are some deviations. Use it only for testing. Retinoic acid, its derivatives and analogs are biological active compounds with therapeutic value. Retinoic acid is a derivative of vitamin A and has important biological activities and physiological functions in regulating the development and differentiation of the embryo, bone formation, formation of the brain, lymphoid organs and mammary glands, female reproduction, and control of cellular proliferation and gene expression. See, for example, Corey, Ann. N.Y. Acad. Sci. (1955) 52:813-821, U.S. Pat. No. 4,277,326, U.S. Pat. No. 4,711,911, U.S. Pat. No. 5,843,967, U.S. Pat. No. 4,608,357, U.S. Pat. No. 5,965,573, U.S. Pat. No. 5,994,360 and U.S. Pat. No. 5,821,239. A retinoic acid derivative having the following formula is known (JP 62-150427 A, JP 63-148446 A, U.S. Pat. No. 5, 2d92ce491b
