The delivery had some significant carry. In a bid to avert a tear, Kohli hit the ball with his right thumb and with his left thumb at the same time. Kohli then left the field immediately. He was replaced by Ajinkya Rahane. The 36-year-old Australian bowler took 2 for 24 in the innings, as Australia climbed to 203 for five. The injury is not considered serious. The same is true for its competition – some people are even sure that one of the main reasons the latter was developed was to defend the business interests of its owner, Microsoft. This suite is compatible with most Windows operating systems, and its components include: MS Word, MS Excel, MS PowerPoint, MS Access and MS Publisher. For example, there's MS Outlook, a tool for maintaining your contacts, schedule and other types of data, as well as email.
