What's New in the?

? Is your Desk and Monitor full of cute yellow Stickers? Have you lost the overview what is already settled and when? With Stickers for Windows you can forget your troubles! Stickers is a useful program which can virtually stick as many memo you like onto your PC Desktop, give them a color depending on importance and never forget a task anymore! It's even possible to create your own language configuration file if you like. Requirements: [?] Microsoft.NET Framework 1.1 installed Limitations: [?] 30 days Changes: 1. Now in Standard Edition i added a Registry Key and a Desktop Entry. (But you can still use the "Custom" version) 2. Now i include a smaller.exe file. 3. The Registry Key & Desktop Entry are now "Recommended". 4. Updated the installation from 2 to 6 Stickers. 5. Now you can configure the language of your Keyboard Layout in the About window. 6. Now i only take one default keyboard Layout into account. 7. i added a new line in the Textfile for the error-message if you do not have .NET Framework installed. 8. Now you can easily add a helpfile into your program. 9. Now you can set the Icon of your Programm in the about window. 10. Now you can add a picture in the about window. (NOTE: The image MUST have a size of 128x128 or higher) 11. I add a /r into the registries file. So now you can remove the Stickers without restarting your PC. 12. Now you can rename the Stickers after you install the program. 13. Now you can remove the Stickers with the menu. 14. Now it is possible to add a helpfile and a picture (as picture!). 15. I added a helpfile and a help-image. 16. Now the user-box where you enter your name is transparent. So you can add any picture. 17. Now it is possible to set the Visible of your programm. 18. Now the Menu now has a.desktop-File. 19. Now you can change the Icon-Directory! 20. Now you can change the Name of your Programm. 21. Now you can delete the Stickers with the Menu! 22. Now you can change the language of your program with the help-window! 23. Now you can change the Language of your programm with the help-window! 24. Now the visible-logo-directory can be changed! 25. Now i can remove the Stickers with the Menu. 26. i changed the Icon of the Programs
