Maven Wizard Screenshot: Maven Wizard is a software application developed by mobile information provider IONDA. The app's main focus is to help in the installation of Mobile's Content Hub which is a product that is developed to allow content for IONDA, and it can be accessed via Android devices. The application was released in October 17, 2011 and is now available in some countries from its Google Play Store. Overview Maven Wizard is a free android application. The app's main focus is to help in the installation of Mobile's Content Hub which is a product that is developed to allow content for IONDA, and it can be accessed via Android devices. The application was released in October 17, 2011 and is now available in some countries from its Google Play Store. Maven Wizard requirements Overview: Maven is a development studio that was founded in 2003 and is based in Tallinn. The company released their first game, Warwood, in 2007, which proved to be a big success and this was due in large part to how the plot and content wrapped itself around the basic gameplay mechanics of the title. The studio developed some other games after 2007, including a title known as Deathrace 2050 which was set for release in 2010. The company has also released several audio projects over the years as well. Read more here This app is made by maverick seeking and his great team. Maven Seeks is for Android tablets.
