ShoqBox Buddy Full Version Free Download [32|64bit]

ShoqBox Buddy is an AudioPlayer program that lets you manage your ShoqBox. It's supported for ShoqBox v2 and v3. Creating files is very easy. Simply drag and drop files to the ShoqBox and press the "Add Files" button. ShoqBox Buddy will automatically create a play list in 1:1:3:3, 1:2:2:2 and 2:2:2:2 formats. ShoqBox Buddy remembers all the settings for all the files - and you can easily switch between different kinds of files without any hassle. The program works like a charm. You are in full control - of the playback options, the play lists and even the name of the songs! You can create groups and even name them. Easy, isn't it? ShoqBox Buddy can do even more, though. You can use the program to transfer audio files from the PC to the ShoqBox. It's even possible to transfer files from a FTP server to the ShoqBox. This version of ShoqBox Buddy does not support downloading play lists.
