[Download](#)

With the StatTrak Address Manager program you can enter and store addresses, print address labels, envelopes, post cards and address reports. The StatTrak Address Manager program can import address lists from a Comma Delimited (CSV) file and has a range of address types allowing you to organize your addresses and enter them in the correct order and can store addresses by individual, groups or by address type. The StatTrak Address Manager program will find your address automatically and will alert you if you are within a specific radius of it. The StatTrak Address Manager program offers a Help and Help topics which contains a set of user guides with help topics. The StatTrak Address Manager program includes a Database and History for the imported and entered data. The StatTrak Address

---

Manager program has a Scheduler that allows you to schedule the printing of addresses and reports on regular basis. The StatTrak Address Manager program has a Graphical User Interface. The StatTrak Address Manager program is a freeware application.

=====

The following link provides detailed instructions for the installation of this software. All folders are created automatically within the correct owner and access permissions (i.e. Administrator/Groups/Users). Note: Do not allow the "everyone" or "guest" user permissions. Want to share your videos or audio files with the whole world? Why not just create an Online Media file (similar to PDF) that has all your videos and audio files embedded within it? There are numerous applications that can create online media files from your digital video and audio files. Now you can save your videos and audio files as an online media

---

file as easy as 1, 2, 3! Here is how you can do it: 1. Go to and register with your username and password. 2. Once you are logged into your Youtube account, right click on the video or audio file that you want to convert to an online media file. 3. Once you have right clicked on the video or audio file, go to Embed option. 4. The "Embed" option will open a new webpage where you can select a webpage or website where you want to embed the online video or audio file from Youtube. 5. Click on the Video or Audio tab of the YT web page
